8(A) BUSINESS DEVELOPMENT PROGRAM

The 8(a) BD Program is intended to be used exclusively for business development purposes to assist small businesses owned and controlled by socially and economically disadvantaged individuals and help them compete on an equal basis in the mainstream American economy. Today's 8(a) BD Program is a strengthened and improved business and development vehicle. Rules now allow for non-minority firms to be considered to participate in the 8(a) BD Program by proving their social disadvantage. There are other aspects of the program that will allow teaming arrangements and a Mentor-Protégé Program to allow companies to learn from others.

Group interview sessions are held the second Thursday of each month at the address listed below. Call to sign up for an orientation.

The interest rate is fixed at 2/3 of prime. The term is usually the useful life of the assets being financed.

COMMUNITY REINVESTMENT AREA PROGRAM

The CRA program is a direct incentive, real property tax exemption program benefiting property owners who renovate existing buildings or construct new buildings. There are two types of CRAs in Ohio – those created prior to July 1, 1994 and those after. The regulations governing each type vary considerably. Local municipalities or counties can determine the type of development to be supported by the CRA Program by specifying the eligibility of residential, commercial and/or industrial projects. The CRA law permits municipalities or counties to offer the following incentives: exemption of real property taxes must be 100 percent for pre-July 1994 areas or up to 100 percent for post-July 1994 areas for up to 15 years for new construction. For renovation projects, the term can be up to 12 years for commercial/industrial projects and up to 10 years for one or two family residential projects. Certain incentive packages may require board of education approval.

To establish authority, a municipality or county must apply to the director of the Ohio Department of Development for certification. To secure benefits, non-retail businesses must apply to the local community for local property tax exemptions and to the director of ODOD for state franchise or state income tax incentives.

LINKED DEPOSIT PROGRAM

Administered by the Office of the Treasurer of the State of Ohio, this economic development program is designed to assist small businesses by offering loans with lower interest rates through a state portfolio investment into reduced rate investments (instruments). These are then linked to the above-mentioned loans, allowing financial organizations to lend at lower rates. Companies must have fewer than 150 employees at the time of application, be organized for profit, maintain existing facilities and offices in Ohio, exclusively, and have a majority of Ohio residents as employees. Limitations on funds are linked to the stipulation that one full-time job or its equivalent must be created or saved for every \$25,000 in the project. The borrower must submit an application projecting and documenting this job creation or saving. Collateral for the loan is dependent upon bank requirements. The interest rate reduction is 300 basis points from normal borrowing rate. The interest rate reduction is for two years. However, the loan term may vary. The linked deposits may be renewed after two years if additional program requirements are met.

Collateral requirements are similar to the Guaranteed Loan, with personal guarantees from the principals being absolutely necessary. Fees are set at 2 percent of the guaranteed portion of the loan amount of \$150,000 on loan maturities of greater than one year, and 0.25 percent for loan maturities of one year or less. Receipt of the loan is dependent upon the credit history and character of the borrower. Those who have declared bankruptcy are ineligible. Certain types of criminal offenses may result in ineligibility. LowDoc is considered an expedited loan program with a rapid response time in loan processing, usually within two business days.

NEIGHBORHOOD COMMERCIAL REVITALIZATION PROGRAM

The Neighborhood Commercial Revitalization Program, coordinated by the city of Columbus' Economic Development Division, is an innovative approach for stimulating investment in 15 designated business districts. The NCR Program is a redevelopment partnership between the city of Columbus, local area merchants and developers. It builds upon the economic base of these areas to create an environment conducive to business growth and expansion. By using a four-step process, action plans are formulated to address the "dollars and cents" economics for individual businesses and the entire district. The four elements of the NCR Program are: financial incentives, planning and design, public improvements and business association activities. The NCR Program has four loan and grant programs to aid in the renovation of the business districts. Grants range from \$250-\$3,000 for exterior façade renovation. The loan programs range from \$7,500-\$300,000 for acquisition and exterior renovation of commercial buildings. The program also provides networking and technical assistance to local businesses.

PRE-QUALIFIED LOAN PROGRAM DESIGNED FOR WOMEN, VETERANS, MINORITIES & EXPORTERS

The Pre-Qualification loan program is designed for individuals having difficulty obtaining financing. Small businesses in Franklin, Delaware, Fairfield, Licking, Fayette, Madison, Muskingum, Perry, Pickaway and Union counties that are at least 51 percent owned by a woman, minority or veteran in exporting, or are a rural-based business, are eligible. Loans are to be used for the acquisition of working capital, equipment, inventory, real estate acquisition, renovations and some refinancing of debt. The loan process is different than that of a traditional SBA backed loan. Instead of going to a lender first, the small business person works through a SBA intermediary — a technical-assistance organization designated by SBA — to prepare a business plan and complete a loan pre-qualification application. The intermediary will charge a fee for services. The application is then submitted to SBA. If the SBA determines it would guarantee the proposed loan, it issues a pre-qualification letter. The small business person can then take the letter to lenders participating in SBA loans.

A "pre-guarantee" may be given by the SBA on loans, with the maximum loan of \$250,000. No minimum loan request amount exists, however, \$35,000 is considered a practical lower limit. Business plans, as well as past and present financial statements (or tax returns), will be required. Collateral consists of, at least, personal guarantees from all who own 20 percent or more of the business. Those with histories of bankruptcy or criminal conduct are ineligible. Loan maturity may be up to 25 years. Interest rates may be fixed or variable and average at prime plus 2 percent.

WORK OPPORTUNITY TAX CREDIT AND WELFARE-TO-WORK TAX CREDIT PROGRAM

The Work Opportunity Tax Credit and Welfare-to-Work Tax Credit Program are federal income tax credits that encourage employers to hire from nine targeted groups of job seekers by reducing employers' federal income tax liability. The new employee must be one of the following: a TANF recipient, veteran, 18 to 24 year-old food stamp recipient, SSI recipient, ex-felon, vocational rehabilitation referral, 18 to 24 year-old EZ/EC/RC resident, 16 to 17 year-old EZ/EC/RC resident, or a long-term Welfare-to-Work recipient.

Employers need only complete two easy forms to apply: an IRS 8850 and ETA 9061, along with any required documentation and mail the IRS 8850 within 21 days of the new hire's employment date.

The Ohio Department of Job & Family Services is the designated agency responsible for administering the program. Employers must apply for, and receive, certification from the ODJFS, WOTC/WtW section.

For the WOTC Tax Credit, employers may claim a credit of 40 percent of first year's wages up to \$6,000, for employees who work at least 400 hours, for a maximum credit of \$2,400 per employee. Employees who work at least 120 hours, but less than 400 hours, will entitle the employer to a tax credit of 25 percent of qualified wages with a maximum credit of \$1,500. Summer Youth Employers may claim a credit of 40 percent of the first \$3,000 in wages, with a maximum credit of \$1,200.

The Welfare-to-Work Tax Credit, for new hires employed 400 or more hours or 180 days, is 35 percent of the first \$10,000 of qualified wages for the first year of employment, for a maximum credit of \$3,500 and 50 percent of the first \$10,000 of qualified wages for the second year for a maximum credit of \$5,000. Employers can claim up to \$8,500 of combined tax savings per new hire.

The WOTC and WtW Tax Credit cannot be claimed for the same individual in the same taxable year. There is no tax credit for relatives, federally-subsidized programs or previously employed employees.

OHIO JOB CREATION TAX CREDIT

This program is administered by the Ohio Department of Development in conjunction with the Ohio Tax Credit Authority. The program provides a refundable tax credit on corporate franchise or income tax, based on performance, to encourage businesses to expand or locate in Ohio. The credit is based on the state income tax withheld on net new, full-time employees. Generally, the tax credit rate and term can be up to 75 percent for up to 10 years, depending upon the parameters of the project. It must be approved by the five-member Tax Credit Authority. The tax credit can exceed 75 percent, or there can be a term of up to 15 years, if the ODOD director rules extraordinary circumstances merit an exception. Businesses must agree to create at least 25 new, full-time jobs with a minimum average wage of at least 150 percent of the current federal minimum wage within three years of operations, or in certain circumstances, as few as 10 full-time jobs paying an average of 400 percent of the Federal Minimum Wage. In addition, the business must demonstrate to the state that the tax credit is a major factor in its decision to go forward with the project. Retail projects do not qualify for this program. The local community must also provide financial support for the project. Municipalities can provide similar tax credits with their local employee income taxes.
