After all, we only have two things to lose:

Our reputations and our lives.
Electrical Work is Serious Business.

- 9,000 hours compiled both in the classroom and on the job to reach Journeyman status.
- A substantial investment in our training/education center, The Electrical Trades Center.

These are just two examples that prove our commitment to training is something we don't take lightly. Customers like you demand and deserve quality installations. To meet your needs, NECA/IBEW apprentices are provided a broad range of rigorous electrical training coursework that provides college degrees. Journeyman and Technician continuing education courses are offered year-round to keep our seasoned workforce informed of the latest technology and electrical code requirements. Our commitment to safety is demonstrated by forging the first NECA/IBEW/OSHA labor-management partnership in the country. State of the art safety courses are presented on a continuous basis at the ETC. So, why the serious commitment to safety and training? Let's just say we have a lot at stake.

Don't you?

8(a) Business Development Program

The 8(a) BD Program is intended to be used exclusively for business development purposes to assist small businesses owned and controlled by socially and economically disadvantaged individuals and help them compete on an equal basis in the mainstream American economy. Today's 8(a) BD Program is a strengthened and improved business and development vehicle. Rules now allow for non-minority firms to be considered to participate in the 8(a) BD Program by proving their social disadvantage. There are other aspects of the program that will allow teaming arrangements and a Mentor-Protégé Program to allow companies to learn from others. Group interview sessions are held the second Thursday of each month at the SBA office address listed here. To register for orientation, call 614-469-6860, or register online at www.sba.gov/oh/columbus, under 8a portfolio registration.
